

HARBOUR MASTERS NOTICE NOTICE 3 of 2022

Inner Harbour/Wet Dock Gate Closure for essential maintenance works.

A programme of works to the dock gate, hydraulics and operating system is underway as detailed in HM Notice 2 of 2022. In order to facilitate these works it is unfortunately necessary for access in and out of the wet dock to be restricted during the following periods:

First period

Monday 20/06/22 for 5 days. *Full closure/no movements

Second period

Tuesday 28/06/22 for 5 days. *Restricted access by arrangement.

Third period

Monday 11/07/22 for 4 days. *Full closure/no movements

It is not planned, at this time, for the wet dock to go tidal for any periods as we seek to minimise disruption. Any changes to this schedule will be promulgated at the earliest opportunity.
