

HARBOUR MASTERS NOTICE NOTICE 9 of 2022

Inner Harbour / Wet Dock gate Closure for essential maintenance works.

A programme of works (initially scheduled for June 2022) to the dock gate, hydraulics and operating systems as detailed in HM Notice 2 of 2022 will be carried out in September and October 2022. In order to facilitate these works it is unfortunately necessary for access in and out of the wet dock to be restricted during the following periods:

First Period

Monday 05/09/2022 through until Friday 09/09/2022 inclusive

Second Period

Monday 26/09/2022 through until Friday 30/09/2022 inclusive

Third Period

Monday 03/10/2022 through until Friday 07/10/2022 inclusive

During the second period, for the duration of one tidal window, we will have to drop the water in the wet dock slightly to allow for access to some bolts on the inside of the dock gate. We will advise closer to the time of this.
