

BUDE HARBOUR

Local Notice to Mariners - 3 of 2023 Temporary Closure of Sea Lock

Mariners are advised that the Sea Lock is temporarily closed to navigation, this is as a result of the long period of time without significant rainfall. Water levels in the River Neet have dropped below a level that we can abstract water from to supply the Canal and replenish after lock movements. For more information and to see the live level data please see - <https://riverlevels.uk/river-neet-bude-stratton-helebridge>

The situation will be monitored on a regular basis and a further notice issued when River levels rise, and abstraction can re-commence.

Paul Vincent
Harbour Master
