

# TRURO HARBOUR

## Reduced channel depth

### Notice No. 10 of 2024

Mariners are advised that following the installation of the stop logs for the Truro Tide Gates by the Environment Agency a bank has developed between the foot of Boscawen Park slipway and the flood defence structure.

The bank has a charted height of 2.5m above chart datum. The Harbour Office are communicating with the Environment Agency and their contractor to remove the bank at the earliest opportunity.

Date 23/08/2024
