ST IVES HARBOUR
HARBOUR MASTER'S NOTICE
Notice No. 5 of 2026
Restriction on Fuel Dispensing

Notice is hereby given that, with immediate effect and until further notice, a restriction is being placed on the dispensing of fuel within the harbour.

Due to the limited storage capacity of the fuel tank and the need to ensure fair and equitable access for all users, fuel dispensing will be limited to a maximum of 300 litres per vessel per transaction.

This measure has been introduced to:

- Ensure that the available fuel supply is shared fairly among all regular users
- Prevent shortages during the period of constrained capacity (Summer)
- Maintain operational continuity for harbour users

There are approximately 15 regular fuel users, and cooperation from all parties is essential to ensure that sufficient fuel remains available for everyone.

Important Information

- Multiple consecutive transactions to bypass this restriction is not permitted
- Users are encouraged to plan fuel requirements accordingly

Compliance

All harbour users are requested to comply fully with this notice. Failure to do so may result in suspension of fuelling privileges.
