

BUDE HARBOUR NOTICE TO MARINERS No. 6 of 2026

Multibeam and Sub-Bottom Survey

Mariners are advised that the following will be taking place - multibeam and sub bottom survey for the area indicated in the images below (focused on the possible site of the wreck of the Alert).

The survey will be from onboard Atlantic Diver, running out of Padstow and be operational for the 5, 6, 7 and 8 of October (with the 5th focused on mobilisation and thus making survey on that day less likely). The work is being conducted by the University of Southampton with the Maritime Archaeology Trust and Historic England.

Date: 29/09/26
